

Fluxaf Caulk Remover

Fluxaf Caulk Remover is a powerful and effective solution for removing unwanted sealant residues from various surfaces. Whether it's silicone, acrylic, or polyurethane sealant, this product makes it easy to remove old sealant residues from surfaces such as tiles, glass, plastic, and metal. The product works quickly and is safe for most materials, making it ideal for both professional and DIY use. Thanks to its user-friendly application, you can achieve a clean, neat result quickly, without damaging the underlying surface.

Removes old sealant residues from:

- Tiles
- Glass
- Plastic
- Metal

Instructions:

1. Ensure that the surface you are working on is clean and dry. First, remove any loose dirt or dust from the surface. Wear gloves for extra protection.
2. Apply a generous amount of Fluxaf Sealant Remover to the surface with sealant residue. This can be done directly from the bottle or with a cloth/sponge. Make sure the entire surface is well covered with the product.
3. Allow the Sealant Remover to work for a few minutes to loosen the sealant residue. For stubborn residue, it may be necessary to leave the product on a bit longer.
4. Use a soft cloth, sponge, or plastic scraper to gently remove the softened sealant from the surface. Avoid using harsh abrasives.
5. If the sealant residue is difficult to remove, apply a small amount of the product again and repeat the procedure.
6. After the sealant residue is removed, rinse the surface thoroughly with clean water to remove any excess cleaner.
7. Allow the surface to dry completely and check if all the sealant residue has been fully removed. If necessary, you can repeat the treatment for stubborn residue.

Attention! Always do a test area first to see if you get the desired finish. Results can differ per wood or surface type.

Cleaning:

Clean tools with water.

Available quantities:

250 ml.

Shelf life:

Store the product in its original packaging in a cool, dry place. Make sure the bottle is tightly closed to prevent evaporation or contamination. Keep out of reach of children.

Safety advice:

For extensive safety information, consult the MSDS. MSDS can be downloaded at www.fluxaf.nl.
